Will Improve the Optic.

R. A. Kitter has returned to his first and only home in the newspaper he and I again employed between the column rules of The Optic, a position that seems to fit him nicely and so it goes—Optic.

The Best Doctor.

Rev. B. C. Horton, Bishop Springs, writes, July 19th, 1898: "I have used in my family Ballard's Snow Liniment and Horsehair Syrup, and they have proved certainly satisfactory. Dawson against the city of Reno to recover judgment in the sum of \$600 on account of warrants issued by the municipality; and one of Frank A. Brady vs. Manuel Aram, a suit in adjustment from a tract of land comprising 137 acres, amounting \$200 damages.

Briggs & Co., and B. Vann & Son.

Santa Clara Indians.

A party of Santa Clara Indians arrived at Santa Fe from St. Louis. Its members had been at the exposition since its opening. Among them were Chief Pedro Cajete, the governor of the Santa Clares; his daughter, and Antito Saez and his wife. They brought back many trophies from the Pikes, including some of the work of other Indian tribes at the fair with whom they traded.

If you ever took DeWitt's Little Early Blowers for biliousness or constipation you know what pill pleasure is. These famous little pills cleanse the liver and rid the system of all bile without producing unpleasant effects. They do not gripe, sicken or weaken, but pleasantly give tone and strength to the tissues and organs of the stomach, liver and bowels. B. W. Briggs & Co., and B. Vann & Son.

Death From Pneumonia.

George Geenty, a contractor, died at Santa Fe after an illness of but six days, of pneumonia. He was a native of Kentucky, coming to Santa Fe from Owasso a year ago on account of his wife's health. Has Returned to Las Vegas.

Walter O'Brien, a territorial cattleman for this district, returned his morning from a professional visit to Albuquerque, says the Optic. Mr. O'Brien says that the cattle shipments from the territory this fall will be heavier than for many years. As an instance of the excess he cites the fact that Springer alone has ordered 10,000 cattle cars for the next week. The northern ranges are in poor condition and many of the northern stockmen who do not care to sell at present are shipping out of the territory or pasturing.

A Love Letter.

Would not interest you if you're seeking for a guaranteed Salve for sores, Burns or Piles. Otto Dodd, of Under, Mo., writes: "I suffered with an ugly sore for a year, but a box of Uncle A. Wilson's Salve cured me. It's the best Salve on earth. 25c at any drugstore."

Hallowe'en Night in Deming.

In Judge Chapman, the hallowe'en boys found their match, and a little more. He appointed a half dozen officers, stationed them in different parts of the town with instructions to arrest and jail every boy or man found roaming property in the city, that night. They didn't damage. The next morning only slight traces of the

PREPARE YOURSELF FOR HOUSE BREAKERS

From Monday's Daily Citizen
Shortly after midnight Saturday night Mrs. Maynard Gansel, of 320 West Gold avenue, had occasion to pass from her sleeping apartments into the dining room. She saw a man standing near the dining table beneath a single incandescent globe carefully examining a pocketbook, which had been left on the table. When she screamed, and her husband rushed from the next room to her assistance, not stopping to think what the trots might be. Mr. Gansel and the burglar met at the door between the dining room and the hall, which led to the front door. The man carried a gun in his left hand. Mr. Gansel struggled with him and for several minutes they surged up and down the hall each straining to get the better of the other. Gansel fighting for his life and property, and the burglar fighting for liberty. The burglar was victorious in the end, and left the house by the window of the bathroom, through which he had entered, firing off his pistol as a warning against possible chase. A physician was called and found Mr. Gansel very much exhausted. His injuries include a scratch on the head, apparently made by the sharp edge of a six-shooter hammer, and numerous bruises about the body and legs.

The part of the house where the fight occurred, was found in confusion. Several articles of jewelry of value and a pocketbook are missing, amounting to nearly \$200.

Mr. Gansel said this morning that he never had such an experience before in his life, and he would not go through it again for \$500. He describes the burglar as a thick-jawed, square-shouldered negro, Mexican or dirty white man.

Mr. Gansel was called to the police station this morning to look at a couple of men arrested by the police last night, but he could not identify either of them as his midnight assailant. However, the police are not discouraged, and feel confident of finally running down the much-wanted burglar.

Called at Bell's House.
Indiana, Ind., Nov. 7.—The republican managers confidently claim the state by from 20,000 to 25,000, while the democrats also claim the state, but use no figures. The statement of democratic managers that the democratic party has not had such an organization in Indiana since 1892, and on the assurance that they will get half of the electoral vote of the state, the democrats are basing their hopes of carrying Indiana. The organization was made under the direction of Thomas Taggart, chairman of the democratic national committee, but the republicans have the best organization they have ever had.

At the Grant Building.
Burglars entered the Grant building at the corner of Railroad avenue and Third street last night and ransacked the offices of Dr. P. G. Cornish, Attorney E. V. Chaves and Household Loan company. In Dr. Cornish's office they overlooked an envelope containing \$6 and passed on without taking anything. They secured nothing of value in Attorney Chaves' office, but in the Household Loan company they found \$1.25 and a Smith & Wesson revolver, which are missing. The thieves gained entrance into Dr. Cornish's office through an open door and then passed from one office to the other through partition doors.

Montana in Doubt.
Butte, Mont., Nov. 7.—Both the democrats and republicans claim Montana today. The betting favors the success of the republican electors and the democratic state ticket.

California is in Doubt.
San Francisco, Nov. 7.—The republican state committee claims the state for Roosevelt by 50,000, while the democratic committee claim the democrats will win by 4,000.

A SERIOUS ACCIDENT.

While Mrs. Wm. Kramer and Mrs. John Hartline were driving Sunday afternoon the ladies met with an accident from which Mrs. Kramer is laid up with the bones of both wrists broken and Mrs. Hartline has some severe bruises on her limbs, which will take some days to recover from.

An interesting feature of this year's campaign in New York is the cause made by Thomas E. Watson, popular nominee for president, and some attention is attracted to the claim of the popular state chairman that Watson will poll from 40,000 to 50,000 in New York.

Denver, Colo., Nov. 7.—The chairman of the republican and democratic parties claim the election on state and national tickets by large majorities. The democrats claim the election of the state ticket by a larger majority than the national ticket, while the republicans concede that the national ticket will run ahead of Peabody for governor.

Democrats Confident.

Wheeling, W. Va., Nov. 7.—Democratic confidence is increasing. They claim the governor by 10,000 and the electoral ticket by a lesser majority. Three of the five congressmen are claimed by the democrats, while the republicans say all five will be republican.

Fair Weather for Election.

Washington, Nov. 7.—The weather bureau today issued the following special forecast for election day:

"Fair weather and reasonable tem-

peratures is indicated for all parts of the United States on Tuesday except cloudiness and showers or snow dur-

ing in parts of New York, northeast Pennsylvania and New England, and in the extreme north Pacific coast."

Nebraska Situation.

St. Louis, Nov. 7.—As the republican state headquarters, it is said that the republicans were never so united before and a close republican victory is anticipated. The democrats claim a majority of from 50,000 to 75,000.

Rhode Island Republican.
Providence, R. I., Nov. 7.—Republi-

cans are claiming this so-called doubtful state on state and national tickets about 10,000. The democrats claim the governorship and look for a victory for Parker.

Delaware for Roosevelt.
Wilmington, Del., Nov. 7.—The democratic leaders today are claiming Delaware by a substantial majority, but the compromise effected by the union and radical republicans is expected to give the electoral vote to Roosevelt by at least 3,000.

Both Sides Claim Connecticut.
New Haven, Nov. 7.—Chairmen of both the state central committees today express confidence of carrying the state on both the national and state tickets. Each chairman also states that the success of his party will depend in a large measure on the platform given by cities in which the so-called labor votes will be heavy.

Colorado Close.
Both Claim Indians.

Indianapolis, Ind., Nov. 7.—The republican managers confidently claim the state by from 20,000 to 25,000, while the democrats also claim the state, but use no figures. The statement of democratic managers that the democratic party has not had such an organization in Indiana since 1892, and on the assurance that they will get half of the electoral vote of the state, the democrats are basing their hopes of carrying Indiana. The organization was made under the direction of Thomas Taggart, chairman of the democratic national committee, but the republicans have the best organization they have ever had.

The ladies of the German Lutheran church will give a "coffee" at Mrs. C. A. Hodson's home, 229 West Second avenue, from 3 to 6 p. m. Every body invited.

The new reservoir which is being built at a cost of about \$200,000, will, when completed, store the waters of the Rio Zuni and will give much more land to the Indians to cultivate. As it is, they are almost self-sustaining.

There is a good school at Zuni and a new school building of stone is being erected at Black Rock, six miles from the agency.

D. D. Graham, the agent, is well versed in Indian affairs and is very popular with the leading members of the tribe. They are good farmers and are exceptionally well equipped. In a day's trip over the reservation I saw sixty-three good farm wagons and their horses and harness were in excellent condition.

There is no question but the Zuni Indians realize that Uncle Sam is their best friend and that he does his best to me to his advantage what is furnished him both in a material and an educational way.

YAQUIS PREPARE FOR WARPATH.

Are Buying Rifles to Make Raids on American and Mexican Border Settlements.

American and Mexican officials at Phoenix, Arizona, were startled Wednesday by the report that the murderous Yaqui Indians of Sonora were procuring arms and ammunition from Phoenix with which to wage their war on the American and Mexican border settlements.

August Plana, consul for the Mexican government, registered a strong protest with Governor Brodie and Ambassador Mariscal was notified at Washington by authorities of the City of Mexico to register an emphatic protest with the secretary of war at Washington. It is thought that only one band of Yaquis procured a few rifles at Phoenix, getting them through a second-hand dealer, who declares he did not know who the Indians were.

Not a Socialist, But a Democrat.
George S. Blunt respects this paper to state that he is not a socialist and that his name was put upon that ticket without his knowledge or consent.—New Mexico.

New Citizen—I enclose the following notice from the New Mexican and ask The Citizen to reprimand it. Mr. Blunt has many friends in Albuquerque, who know him as a staunch democrat, and he does not wish to be classed as a socialist. He informs me that his entire family, here in the state and in the territories, are democrats, and he does not propose to forsake the party of his father for revenue or otherwise.

Yours truly,

JUSTICE.

Santa Fe, N. M., Nov. 7.

Many Mothers of a Like Opinion.

Mrs. Pilmer, of Cordova, Iowa,

says: "One of my children was subject to a crop of a severe type, and the giving of Chamberlain's Cough Remedy promptly, always brought relief. Many mothers in this neighborhood think the same as I do about this remedy and wait no other kind for their children. For sale by all druggists."

Better Than Pills.

The question has been asked—In what way are Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartic and liver pills?

Our answer is—they are easier and more pleasant to take, and their effect is so gentle and so agreeable that one hardly realizes that it is produced by a medicine. Then they not only move the bowels, but improve the appetite. For sale at 25 cents per bottle by all druggists.

Fatal Boiler Explosion.

Leavenworth, Kan., Nov. 8.—By the explosion of a boiler here today the plant of the Kep Furniture company, with contents, valued at \$125,000, was practically destroyed, one employee killed and five others injured, one fatally.

ZUNI INDIANS PROGRESSING

WITH THE HELP OF THE GOVERNMENT ARE MAKING RAPID STRIDES IN AGRICULTURE.

Work is rapidly progressing on the reservoir which the government is building on the Zuni Indian reservation in the western part of the territory, and when it is completed it will store 10,000 acres feet of water for the irrigation of 6,000 acres of additional land, which will be tilled by the Zuni Indians. W. W. Jones, of San Francisco, who has just returned from there where he surveyed the western boundary of the reservation, which ends with the territorial line, said in an interview yesterday that the government is doing much for the Zuni, and it is evident that they are progressing.

"The Zuni," said Mr. Jones, "unlike their neighbors, the Navajos, are not nomadically inclined, but stay on their farms from year to year, always adding to them and bringing them to a higher state of cultivation. They live in modern houses and farm on modern agricultural lines. There are many good sheep and cattle ranches on the reservation, and the government extends every aid and encouragement to them.

"The new reservoir which is being built at a cost of about \$200,000, will, when completed, store the waters of the Rio Zuni and will give much more land to the Indians to cultivate. As it is, they are almost self-sustaining.
